

76/6483

22 JUN 1976

MEMORANDUM FOR: Chief, Policy and Plans Group, Office of Security

FROM : [REDACTED]  
Acting Director of Training

SUBJECT : Reports for Senate Select Committee on Intelligence

1. The Office of Training produces one report which might be of interest to the Committee. This is the annual report on component-conducted training. It is based upon submissions from all Agency components on formal training which they have conducted during the preceding fiscal year. The report contains information on each course, number of runnings during the year, number of students, total cost, and average cost per student and per course hour. This report may be made available to the Committee, but it must be maintained on a classified basis because of the sensitivity of some of the training.

2. In addition, this Office is responsible for publication of the Studies in Intelligence. This document, however, is a mechanism for the informal exchange of ideas and experiences in the intelligence field and probably would not be of interest to the Committee.
